**A.G. GROUP OF
INSTITUTIONS**

MESSAGE FROM SECRETARY

As we look to the future, one thing is certain – knowledge will be a key resource and will be highly sought-after around the world. To meet this, AGGI primarily focuses on educating and training students to work in fields where they will be valued both for their specialized knowledge and for their ability to research communicate and solve problems.

Learning is not just confined to the classroom at AGGI. It is something beyond that in the form of conferences, workshops, seminars, guest lectures, Hackathons, Aprons, project making, community initiatives, sports, Cultural, clubs and other co-curricular and extracurricular activities. These activities expose students to aspects beyond the curriculum, thus adding value to their professional success. The magnificent infrastructure of AGGI and the dynamic and qualified staff set the right ambience for facilitating these activities.

ZAKI ARFIN

(A.G Group Of Institutions)

MESSAGE FROM VICE-PRINCIPAL

Today with technology explosion many new realms have opened for knowledge access. In the present age, a teacher is more a guide than an instructor. Quality is never an accident; it is always the result of high intention, sincere effort, intelligent direction and skillful execution.

We, the Management, Principal and Staffs are committed to execute all the above to achieve our goal.

Prof. Lisa Sam

(A.G Group Of Institutions)

About College

"A Campus of Knowledge with Skill"

About Us

Eligibility	Intermediate with Science Stream PCB/PCM/PCMB with English

A Paramedic is a highly trained and skilled medical Professional who is educated to carry out some of the duties of a Physician. A Paramedic is an expert who assists the doctors in focused areas and aids for improved diagnosis and therapy . They are typically utilized as emergency care practitioners on ambulances or on first response emergency vehicles but their scope is rapidly expanding to many other areas. A Paramedic works beside and/or resembles the Physician. Many of the procedures and medications administered by the Paramedic are ordered and supervised by a Physician. If you also fancy a career as a healthcare Professional, enroll for a Paramedical course today and gain all the qualifications to be a lifesaver.

Paramedical

INTAKE: 60 SEATS

Eligibility 10+2 Class Passed (PCB/PCM)

Selection Procedure Entrance Exam & Interview.

Dresser

Approved by Jharkhand Paramedical Council.

Duration of Course 1 Year

Medium of Instruction Hindi/English

Eligibility 10th Passed

Selection Procedure Entrance Exam & Interview.

LABORATORIES FOR NURSING

Our nursing laboratories will give you the chance to apply your critical thinking skills and classroom knowledge in a variety of realistic scenarios, from practicing basic skills to performing a head-to-toe physical assessment. The Skills Lab is a simulated Twelve-bed healthcare setting equipped with mannequins capable of reproducing lifelike blood pressures, pulses and lung sounds. You can practice psychomotor skills from basic blood pressure and pulse to more complex skills involving sterile technique. The lab is staffed by faculty and graduate assistants who are always available to help. The Health Assessment Lab holds three exam tables and physical assessment equipment to use as you practice completing a thorough history and physical exam.

Nursing Foundation Laboratory

This lab is well-equipped with 10 beds & set of all items needed for Nursing procedure practice to provide comprehensive nursing care to the patient admitted in the hospitals, Students will be given preliminary training in patient care at the college laboratory.

Nutrition Laboratory

Our specially designed nutrition teaching facilities allow students to gain hands-on experience in a Nutrition Lab. The laboratory is used by students for basic cooking skills, and learning about the influence of culture on food. Our nursing students use the laboratory for modifying recipes to meet special dietary requirements or health goals for different age group of patient. The laboratory includes industry-standard cooking equipment, and also contains healthy eating educational tools.

Anatomy & Physiology Lab

The Human Anatomy and Physiology Laboratory is a well-furnished and well equipped. This laboratory facilitates study of anatomy in the bodily systems using various models, the dissection of specimens, and with cutting edge technology to study virtual human cadavers, using projector which provide interactive display capable of virtual human cadaver dissection. Additionally, the lab also has the capacity for investigation of physiological functionality through experimentation using Biopac Student Lab data acquisition units, which can measure cardiovascular, muscular, pulmonary, neural responses.

LABORATORIES FOR NURSING

Maternal and Child Health Nursing (MCH) Laboratory.

We have M.C.H lab, which is well ventilated and well-furnished and well equipped. In M.C.H lab we have the manikins like newborn baby, cardio pulmonary resuscitation child, fetus delivery. With this, models like stages of development of embryo, foot presentation, Types of spinabifida, face presentation, brow presentation, growth of the womb during pregnancy, placenta previa, stages of labour.

Also, the lab contains specimen like fibroadenoma breast, uterus and ovary, fibroid uterus, aborted fetus, fibro edema breast, and instruments like cusco's speculum, cord cutting scissors, pelvinometer, sim's vaginal speculum, uterine sound, ovum forcep, feotoscope.

We do provide demonstration of procedure like:

- Draping & positioning the patient for gynecological examination.
- Antenatal assessment.
- Demonstration of normal delivery.
- Physical assessment of newborn.
- Newborn baby bath.
- Care of newborn like eye care, cord care, feeding.
- To prepare posters & project related to antenatal diet, family planning, health education.
- To demonstrate resuscitation of newborn.
- To introduce students about instruments using for normal delivery, episiotomy and D & C, M.T.P
- To make the students able to prepare sterile trays like perineal care tray, suture removal tray, forceps delivery tray, vaginal examination tray & surgical trolley.

Community Health Lab

We have M.C.H lab, which is well ventilated and well-furnished and well equipped. In M.C.H lab we have the manikins like newborn baby, cardio pulmonary resuscitation child, fetus delivery. With this, models like stages of development of embryo, foot presentation, Types of spinabifida, face presentation, brow presentation, growth of the womb during pregnancy, placenta previa, stages of labour.

Diploma in Medical Lab Technician (D.M.L.T)

These Technology are skilled Scientists who perform tests that aid in the diagnosis and treatment of diseases. As vital members of the health care team, they assist Doctors during the diagnosis and treatment of patients. it has a vital role to play in the technology of food Chemistry water analysis too which are two very important constituents of life sustenance. There are excellent job opportunities for qualified D.M.L.T

Diploma in X-Ray Technician

It deals with capturing inside pictures or fetching the Anatomical position of a body part for the treatments our Medical X-Ray technology courses intend to meet the growing demands for qualified trained and skilled radiographers required by various organizations associated with the health sector. Such as Medical Institution, Hospitals & Nursing Homes, Clinic etc. This is also useful in Dental, Orthopedic Treatments.

Diploma in Operation Theatre

It deals with the Management of Operation Theatre, Sterilization as well as maintenance of Instruments that helps in Surgery .A.N.O.T Asst. is having a much Important role before the operation, during the operation, and after the operation of a patient. They are competent for organizing and handling all the Surgical procedures alone or with surgeons. Such personnel is greater demand in Medical Science Organizations than a Doctor/ Surgeon.

Diploma in Radio Imaging

A Diploma in Radio Imaging, also known as Diploma in Radiology and Imaging Technology, is a two-year program focused on the principles and practices of medical imaging. Graduates learn to operate imaging equipment, perform diagnostic procedures, interpret radiographic images, and ensure patient safety. This diploma prepares individuals for careers as radiologic technologists in hospitals, clinics, and diagnostic centers.

Diploma in ICU Technician

A Diploma in ICU Technician is a program focused on training individuals to assist in the care of critically ill patients within an Intensive Care Unit (ICU). It typically involves learning about patient monitoring, emergency interventions, ventilator management, and infection control. The duration of the diploma can vary, often ranging from one to two years

Computer Lab

Information technology empowers students to do what they want to do. It lets students be creative, productive. It lasts students to learn things they didn't think they could learn before. Hence there is a need for a Specialty in informatics in nursing, the lab is established in nursing it helps to provide high technique and high touch care.

Audio Visual Aid Room

An Audio Visual Aid Room is Available for students to create their Own Audio visual aids. The laboratory is equipped with extensive audio Visual equipment to assist in the presentation through, LCD Projector, Slider Projector, Film projector, Video and 35mm slide images to Television, over-head Projector & Epidiascope allows active demonstration, text or diagrams to be displayed.

Library

The library is one of the important activities as far as education is concerned. This library maintains an in-depth collection of around 3100 professionals, 200 textbooks in all the specialties of nursing and allied science, plus an extended collection of various journals from India and abroad, integrated resource Packages, sound recording, e-learning modules microfiche, and Video Tapes. Study tables, preview facilities, and photocopies are available. Brief reference help is offered at most times.

Hostel

Separate hostel facilities are provided for Boys and Girls in the college campus. It has adequate high security and good discipline. Each room has an attached bathroom. The students who are not staying with the parents shall reside in the college hostel as per college rules.
